Number 1 – 10 June 1996

Research reports

Quantification of lipoprotein lipase (LPL) by dissociation-enhanced lanthanide fluorescence immunoassay. Comparison of immunoreactivity of LPL mass and enzyme activity of LPL
I. Wicher, W. Sattler, A. Ibovnik, G.M. Kostner, R. Zechner and E. Malle (Austria) 1

Construction of recombinant extended single-chain antibody peptide conjugates for use in the diagnosis of HIV-1 and HIV-2
G. Coia, P.J. Hudson and G.G. Lilley (Australia) 13

Preparation and characterization of poly-(D,L-lactide-co-glycolide) and poly-(L-lactic acid) microspheres with entrapped pneumotropic bacterial antigens
N. Kofler, C. Ruedl, J. Klima, H. Recheis, G. Böck, G. Wick and H. Wolf (Austria) 25

CTL lysis: there is a hyperbolic relation of killing rate to exocytosable granzyme A for highly cytotoxic murine cytotoxic T lymphocytes
M. Poe, J.K. Wu, A. Talento and G.C. Koo (USA) 37

Combined Hoechst 33342 and merocyanine 540 staining to examine murine B cell cycle stage, viability and apoptosis
S. Reid, R. Cross and E.C. Snow (USA) 43

Biodistribution of clodronate and liposomes used in the liposome mediated macrophage 'suicide' approach
A.M.J. Buiting, F. Zhou, J.A.J. Bakker, N. Van Rooijen and L. Huang (Netherlands, USA) 55

Enhancing immunoelectrochemiluminescence (IECL) for sensitive bacterial detection
H. Yu (USA) 63

An alternative ELISA for T4 determination based on idiotype anti-idiotype interaction and a latex method for anti-idiotype monoclonal antibody selection
M.I. Becker, J.E. Aguayo, A. Jamett, F. Juica, A. Yudelevich, A. Foradori and A.E. De Ioannes (Chile) 73

Novel monoclonal antibody, SO-MU1, against human gastric MUC5AC apomucin
M.-a. Sotozono, Y. Okada, T. Sasagawa, T. Nakatou, A. Yoshida, T. Yokoi, M. Kubota and T. Tsuji (Japan) 87

Nitric oxide inducing factor as a measure of antigen and mitogen-specific T cell responses in chickens
K. Karaca, I.-J. Kim, S.K. Reddy and J.M. Sharma (USA) 97

In vivo CTL immunity can be elicited by in vitro reconstituted MHC/peptide complex
I. Sakita, H. Hörig, R. Sun, F. Wang and S.G. Nathenson (USA) 105

Use of [35S]methionine-labelled rat lymphoblasts in micro-cytotoxic and limiting dilution assays
C. Andoins, D. De Fornel, P. Fontet and P. Dutartre (France) 117

A strategy for the synthesis and screening of thiol-modified peptide variants recognized by T cells
T.C. Manning, B.A. Schodin and D.M. Kranz (USA) 125

A rapid and sensitive enzyme linked immunofilter assay (ELIFA) for whole bacterial cells
S.M. Paffard, R.J. Miles, C.R. Clark and R.G. Price (UK, USA) 133

Generation of novel killer hybridomas derived from proliferation-suppressed somatic cell hybrids between YACUT T cell lymphoma and normal lymphocytes activated in secondary mixed lymphocyte cultures
K. Kubota, K. Nakazato, H. Tamauchi, T. Sasahara and H. Katoh (Japan) 137

Determination of T cell epitopes with random peptide libraries
B.R. Gundlach, K.-H. Wiesmüller, T. Junt, S. Kienle, G. Jung and P. Walden (Germany) 149

A simple immunomagnetic bead-based technique for the detection of surface molecules capable of inducing T cell functional polarisation
C.P. Rubbi and D. Rickwood (UK) 157

A fluorogenic assay of endogenous phosphatase for assessment of cell adhesion
E. Tolosa and S. Shaw (USA) 165

A simple chemiluminescence assay for the determination of reactive oxygen species produced by human neutrophils
L. Liu, C. Dahlgren, H. Elwing and H. Lundqvist (Sweden) 173
A light-scattering assay for lymphocyte shape and its application to T and B lymphocyte responses to cultured high-walled endothelial cells
H. Harris, C. Jolley and N.G. Miller (UK) 179

Technical note

Enhanced sensitivity of a two-site acridinium ester based immunochemiluminometric assay for rat growth hormone-releasing hormone using simple modifications in assay procedure
J.W. Leidy Jr. (USA) 187

Letters to the editors

Assessment of variation in trypsin-sensitive neutralizable antigenic site of type O foot-and-mouth disease virus (FMDV) isolates using a Mab-binding inhibition assay
B. Pattnaik, S.J. Jadhao, R. Venkataramanan and A.K. Mukhopadhyay (India) 191
Alteration of the trypsin-sensitive antigenic site of foot-and-mouth disease virus following direct binding to an ELISA plate
B. Pattnaik, R. Venkataramanan and A.K. Mukhopadhyaya (India) 195

Contents of Volume 192 (1996) 199
